

Dear Parents,

This is being sent home as a reminder for the safety of our children. I would like to encourage parents and others who pick up and drop off children for school to follow these traffic flow patterns.

In the morning: please enter from High Street into the alley east of the Rectory and proceed north past the entrance to the School into the parking lot and park in the parking lot, **BEFORE** letting your children out of the vehicle.

In the afternoon: after school, the children will walk to your parked vehicle. **Please do not stop in the alley.** Please exit through the alley either east to 7th Street or west to 6th Street.

Please do not try to enter through the alley from 6th St. or from 7th St. This has caused many near collisions in the alley.

Also, please do not use the alley between 7th and 8th Streets and between High and Grant Street as a through street. Alleys are for access to private property not for through traffic. Thanks for being a good neighbor!

Please give this information to any other person who might pick up or drop off your children.
